

# Push

Dio

You've ridden on a carousel  
So you know the feeling  
As the ring slips through your fingers  
Sometimes you justify it  
There's the sword  
And you're bleeding once again  
Before you're in a corner  
Can't crawl away  
Here's a way to save you  
You gotta push  
Get out of my way and push  
You can turn the wheel, push  
One more push  
You master the broken heart  
And so you know the feeling  
As your soul starts going under  
Sometimes you rectify it  
Then out of the blue

The hammer falls again  
Before you're in the water  
Can't sail away  
Here's a way to save you  
You gotta push  
Break the body down, oh push  
Out of my way, I'll push  
You better push  
You gotta push  
Hands against the wall and push  
Out of my way, we'll push  
You can turn the wheel  
Go on and push  
Push  
Push  
Push  
Push
