Acid Rain

Saintseneca

Saw you in the rain, semi-torn apart
With those Alice Cooper eyes watching the storm
And you were so strange in that hurricane
And I knew that I was just too late
I will run with you in a silent film
Under the acid rain
No one sees us cry under the acid rain
So let it rain, just let it rain
I still miss you now when it's pouring down
I just hope that you remember
When the fires raged for all night and day
In our movie that was never made
I will run to you, never let you go
Under the acid rain
No one sees us cry under the acid rain
Let it rain, let it rain, let it rain
Acid rain, acid rain
Under the acid rain
