Finding My Way

Alice Peacock

Remember when we were young and brave
Nothing could tear us apart
Together we'd face a brand new day
Fearless with open hearts
But then life got in the way
Now there's so much I gotta' say
'cause' while I was finding my way back to you again
I found the way back to me
There were some times my words were hateful
I was so careless and so unkind
And instead of feeling grateful
I felt I'd left myself behind
But through the darkness I could see
All of the light surrounding me
And while I was finding my way back to you again
I found the way back to me
Memories, the ties that bind
The blood inside your veins and mine
The secrets of a family
You'll always be...a part of me
So why don't we lay it on the line
And give in to love while there's still time
'cause' while I was finding my way back to you again
I found the way back to me
In finding my way back to you again
I found the way...back to me
