One Small Choice

Audiovent

Sometimes
I wonder how it all would be
If only
One thing happened differently
And time will tell
What will become of us
One small choice
Just one small choiceAnd what if I had never decided this?
Would I be here?
Or be gone?
And all I've ever wanted
Was just to see how it would be
One small choiceSometimes
I wonder what it's like to fly
So easy
One small choice could end my life
I'd take the second chance
To make things right
Just one small choiceAnd what if I had never decided this?
Would I be here or be gone?
And all I've ever wanted
Was just to see how it would be
One small choiceNeed it, feed it, can't reseed it
(Why?)
Need it, feed it, can't reseed it
Why?
Need it, feed it, can't reseed it
(Why?)
Need it, feed it, can't reseed it
Why?What if I had never decided this?
Would I be here or be gone?
And all I've ever wanted
Was just to see how it would be
One small choice
And all I've ever wanted
Was just to see how it would be
One small choice
