One Small Choice

Audiovent

Sometimes

I wonder how it all would be

If only

One thing happened differently

And time will tell

What will become of us

One small choice

Just one small choiceAnd what if I had never decided this?

Would I be here?

Or be gone?

And all I've ever wanted

Was just to see how it would be

One small choiceSometimes

I wonder what it's like to fly

So easy

One small choice could end my life

I'd take the second chance

To make things right

Just one small choiceAnd what if I had never decided this?

Would I be here or be gone?

And all I've ever wanted

Was just to see how it would be

One small choiceNeed it, feed it, can't reseed it

(Why?)

Need it, feed it, can't reseed it

Why?

Need it, feed it, can't reseed it

(Why?)

Need it, feed it, can't reseed it

Why? What if I had never decided this?

Would I be here or be gone?

And all I've ever wanted

Was just to see how it would be

One small choice

And all I've ever wanted

Was just to see how it would be

One small choice
