

# Makin' Up

## The Outfield

Hey you what's your problem I been mystified  
You might come from a different city body talks just like mine  
Some things get misunderstood and we can't stop the fight  
But there's one thing that we don't disagree on putting right Makin' up, makin' up by makin' love  
Oh, makin' up, up, makin' up by makin' love Hey I don't need to be teased I'm no suicide  
You might think I'm on the edge just about to dive  
Don't move back or turn around, when you say you've gone for sure  
'Cos every night when talk gets cheap, you still come back for more Makin' up, makin' up by makin' love  
Oh, makin' up, up, makin' up by makin' love Hey little dream maker you can stick the cream  
I've abused so many times I don't believe in me  
It's the best if I suggest and you just try to please  
There's one thing we both agree can end hostility Makin' up, makin' up by makin' love  
Oh, makin' up, up, makin' up by makin' love
