

Mister Detective

Bonsai Nation

You wanna know what I feel?
Like some pathetic detective with some patience to kill
So I keep putting down all your pills
But it's that look on your face that's upsetting me still

I know that I grow from the earth to the sky
To the sun where I'll die
And it's that unfamiliar sound
Our eyes on the ground, our thoughts in the clouds

Have you ever felt so real?
Upside-down behind the wheel
Hey I'm spread a little too thin
But it's not sink and I swim
It's just the water we're in

I know that I'm going from the earth to the sky
To the sun where I'll die, hey
And it's that unfamiliar sound
It's our thoughts in the clouds, our minds on the ground

You wanna know what I feel?
Like some pathetic detective with some patients to kill
So I'm so happy to be refilled
Because you're at it again, you're at it again
