Stop Dreaming

Jan Wayne

Stop dreamingCome on and I take you on a ride,
I wanna be the one that's on your side,
Stop dreaming of me,
Just stand up and follow me.Come on and I take you through the night,
You will see that everything's alright,
Move your body to me,
I will give you harmony.Come on and I take you on a ride,
I wanna be the one that's on your side,
Stop dreaming of me,
Just stand up and follow me.Come on and I take you through the night,
You will see that everything's alright,
Move your body to me,
I will give you harmony.Come on and I take you on a ride,
I wanna be the one that's on your side,
Stop dreaming of me,
Just stand up and follow me.Come on and I take you through the night,
You will see that everything's alright,
Move your body to me,
I will give you harmony.Stop dreaming
