1981

Jimmy Norman

Here's what I think about you and how your friends
How your friends adore your sudden glory
Heres what I know about you and all your trends
And all the times we made believe a storyHeres what I think about making face
Without a grain of doubt its all I think about, its all in my mind
Its best I make a sound before I hit the groundRun away from it all
Its what I think about, its what I know about, its what I care aboutPain wont go away even when the drugs say, I wont regret
Time heals so Im told, I could never be sold, I dont forgetAnd if I should start to wonder, pull me out from the rock Im underHeres what I think about vacant space
Without a grain of doubt its all I think about, its all in my mind
I better hit the town before the rain comes downRun away from it all
Far away from it allPain wont go away even when the drugs say, I wont regret
Time heals so Im told, I could never be sold, I dont forget
Hey Dave, youre so brave, I can never be saved, take it from me
He said, she said, even if theyre not dead, bring them to meRun away from it all, from it allPain wont go away even if the drugs stay, I dont regret
Time heals so Im told, I could never be sold, I wont forget.
I wont forget.
I dont forget.
