

It's The Way

Berlin

Didn't know the way I was feeling
Didn't know what I was suppose to do this time
Lately, I have felt like I have never
Feels like I am losing my mind
Every time I think about it
I run away
Can you help me to the place?
It's the way, it's the way
You're moving in my heart
The way you look into my eyes
Can you say all the things
You're feeling in your soul today?
It's the way
Can't remember where this started
But I know that there is freedom in your love
I'm dreaming of you near me, baby
Can you hold me through the nights and always?
Every time I think about it
I run away
Can you help me to the place?
It's the way, it's the way
You're moving in my heart
The way you look into my eyes
Can you say all the things
You're feeling in your soul today?
It's the way
Every time I think about it
I run away
Can you help me to the place?
I know you are the one
I know that it's begun
You're the love of my life
