

Drove

Coal Chamber

Keep my enemies close to me
And I've been watching you closely
Yes I despise you mostly, yes you You think you're tall for dogging me
You're small you see a wanna be
A mirror of me is stolen, identity Why'd I do it?
You drove me to it
Why'd I do it?
You drove me to it Why'd I do it?
You drove me to it
Why'd I do it?
You drove me to it You think you're tall for dogging me
You're small you see a wanna be
A mirror of me is stolen, identity I keep my friends close to me
And I've been watching you closely
Yes I despise you mostly, yes you Why'd I do it?
You drove me to it
Why'd I do it?
You drove me to it Why'd I do it?
You drove me to it
Why'd I do it?
You drove me to it Why'd I do it?
You drove me to it
Why'd I do it?
You drove me to it Why'd I do it?
You drove me to it
Why'd I do it?
You drove me to it Why'd I do it?
You drove me to it
Why'd I do it?
You drove me to it You can take the high road
We'll play by my rules
You can take the high road
We'll play by my rules Say never, say never, say never, say never
Say never, say never, say never, say never
Say never, say never, say never, say never Say never, say never, say never
Never, say never, say never, say never
Never, say never, say never, say never Never say, never say
Never say, never say
Never, say never, say never, say never Why'd I do it?
You drove me to it drove
Why'd I do it?
You drove me to it drove Why'd I do it?

You drove me to it drove
Why'd I do it?
You drove me to it drove
Yeah
