## **Drove**

## **Coal Chamber**

Keep my enemies close to me

And I've been watching you closely

Yes I despise you mostly, yes youYou think you're tall for dogging me

You're small you see a wanna be

A mirror of me is stolen, identityWhy'd I do it?

You drove me to it

Why'd I do it?

You drove me to itWhy'd I do it?

You drove me to it

Why'd I do it?

You drove me to itYou think you're tall for dogging me

You're small you see a wanna be

A mirror of me is stolen, identityI keep my friends close to me

And I've been watching you closely

Yes I despise you mostly, yes youWhy'd I do it?

You drove me to it

Why'd I do it?

You drove me to itWhy'd I do it?

You drove me to it

Why'd I do it?

You drove me to itWhy'd I do it?

You drove me to it

Why'd I do it?

You drove me to itWhy'd I do it?

You drove me to it

Why'd I do it?

You drove me to itYou can take the high road

We'll play by my rules

You can take the high road

We'll play by my rulesSay never, say never, say never, say never

Say never, say never, say never, say never

Say never, say never, say never, say never, say never, say never, say never

Never, say never, say never, say never

Never, say never, say never say, never say

Never say, never say

Never, say never, say never, say neverWhy'd I do it?

You drove me to it drove

Why'd I do it?

You drove me to it droveWhy'd I do it?

You drove me to it drove Why'd I do it? You drove me to it drove Yeah
