

Now to War

Guided By Voices

There is no boy in me now
There is no time and I'm alone
But I am only breathing, breathing around
I get involved with your crowdThey make me feel so alone
If you could only see me when I'm around
But this is you and this is war
It makes me drink even moreAnd I'll have fun then I'll make a mark on you
I'll tell you all that I am
How simple feet will walk for free
Until you injure me again
(Enter the drag queen)
