

# Last Generation

Noel Richards

We stopped and left the car  
Last thing I can recall  
A raging weave of light  
Vaporized all this life

And we ran into the field  
Incapable to breathe

[Chorus:]

Rest in peace is all over now  
Its the end of salvation  
Memories in the photographs  
Of the last generation  
Of the last generation

I see this in my dream  
Petrified family  
Pointing hands at me  
Victims of the tragedy

And dust replaced their souls  
Hearts turned into stone

[Chorus]

And dust replaced their souls  
Minds turned into stone

[Chorus: Repeat x2]  
Of the last generation
