Emily

Lovebugs

You gonna phone me up again
When you've sat too long alone
At a table there at lou's
Drift about the afternoonAnd of course I sit with you
For a while most every day
Wave at people that pass by
I find it easy with youAnd I wonder why it's so hard
For you to fall in love
And I wonder why it's easy
For you to fall in bedWe can laugh at everyone
But most about ourselves
Yes I couldn't take a look
In a serious way at youOh emily
It's 'cause I love you far too much
