

# Sleep It Off

## Green River Ordinance

Morning rises, everything has come too soon  
The fight last night left you broke and bruised  
You watched everything here, we'll just let you down  
Searching for something you haven't found  
I'm not sure what it all might meanSleep it off baby  
When tomorrow comes then maybe we can work it all out  
Sleep it off baby  
When tomorrow comes then maybe we can work it all out  
Right now the best is yet to comeSun and tide, everything takes it's toll  
You step outside side, summer time it leads you home  
You've been waiting a long time for this to pass  
Nothing healed, will it ever last? I'm not sure just who I wasSleep it off baby  
When tomorrow comes then maybe we can work it all out  
Sleep it off baby  
When tomorrow comes then maybe we can work it all outBut don't cry baby  
We can work it all out  
But don't cry baby  
We can work it all outStep outside, you wanna be somebody  
Well, I can give you what you need  
Step outside, you wanna be somebody  
Well, I can give you what you need  
Step outside, you wanna be somebody  
Well, I can give you whatSleep it off baby  
When tomorrow comes then maybe we can work it all out  
Sleep it off baby  
When tomorrow comes then maybe we can work it all outBut don't cry baby  
We can work it all out  
But don't cry baby  
We can work it all out  
Right now, the best is yet to come
