## **Faithful**

## **Pearl Jam**

Plaque on the wall says that no one's slept here

It's rare to come upon a bridge that has not been around

Or been stepped on

Whatever the notions we laced in our prayers

The man upstairs is used to all of this noise

I'm through with screamingAnd echoes nobody hears it goes it goes it goes

Like echoes nobody hears it goes it goes

We're faithful we all believe we all believe it {4X} And echoes nobody hears, it goes, it goes, it goes {2X}

We're faithful, we all believe, we all believe it {3X}

We're faithful, we all believe, we all believe it  $\{3X\}$ So faithful, we all believe, we all believe itM.Y.T.H. is? Belief in the game controls that keeps us in a box of fear

We never listen
Voice inside so drowned out
Drowned you are, you are...
You are everything, and everything is you
Me, you... you, me. It's all related
What's a boy to do?
Just be darling and I will be too
Faithful to you
