

# Whatever It May Take

## Michael Learns to Rock

You made me crawl feeling so small  
Creeping like shapes along the walls  
Life fades to gray  
Why must I pay  
For giving my heart away [Chorus]  
But whatever it may take  
However my heart breaks  
I'll keep singing in the rain  
'Til your back again  
You left a hole deep in my soul  
Leaving my world so cold  
But standing eye to eye  
I still wonder why  
We had to say goodbye [Chorus]  
And whoever that changed your mind  
Whoever that makes you blind  
I'll keep waiting here for you  
All I ventured but nothing gained  
I'm walking through the rain  
Trying to keep a fading flame alive  
Help!  
Help me  
Baby I'm lonely oh so lonely  
Will I ever feel your love again  
Am I really losing you my friend  
Your absent talking your missing light  
Make's me lonely on a Saturday night
