Not This Girl

Isabella Cole

You stroll in smooth all dressed in black
Walk that line like Johnny Cash
Like one good look can make my heart stand still

I see right through that rebel act
Someone else might fall for that
Someone else could fall
But not this girl

Cause this girl knows a snake when she sees one
And this girl's mama didn't raise a fool
So take that line you sell
And try it on someone else
On someone else
But not this girl

Some girls just don't have the sense
To see from your experience
You only let them in
To work your will

False bravado sets the trap
One by one they fall for that
One by one they fall
But not this girl

Cause this girl knows a snake when she sees one
And this girl's mama didn't raise a fool
So take that line you sell
And try it on someone else
On someone else
But not this girl

(Solo)

Cause this girl knows a snake when she sees one
And this girl's mama didn't raise a fool
So take that line you sell
And try it on someone else
On someone else

But not this girl
