

Not Like The Others

Robbie Williams

You do something that reminds me
The days of rage are now behind me
I have to live outside the law
Cause I'm a naughty boy with a dirty habit
Tryin to use some teenage magic pickin'
Panties off the floor
And when she comes, she comes for hours
No, she don't fake for no one, she don't fake for no one
And the flaw gives it away with you
It's true, I was close to do
And fall in love
Oh baby, please
Begging you darling please
Under the covers
You and me are not like the others
You and me are not like the others
Please
Begging you darling please
God loves a lover
You and me are not like the others
You and me are not like the others
You do something that reminds me
I've no resistance, follow blindly
And baby, that's what I came here for
Cause you pulled me out of my sedation
Back to the side street meditation
Another sexual metaphor
So when you come, she crawl for hours
No, I don't fake for no one
She don't fake for no one
And the flaw gives it away with you

It's true, I was close to do
And fall in love
Please
Begging you darling please
Under the covers
You and me are not like the others
You and me are not like the others

Please
Begging you darling please
God loves a lover
You and me are not like the others
You and me are not like the others
We are not like the others
Under, under the covers
God loves, God loves a lover
We are not like the others
We are not like the others
Under, under the covers
God loves, God loves a lover
We are not like the others

Please
Begging, my darling please
Under the covers
You and me are not like the others
You and me are not like the others

Please
Begging, my darling please
God loves a lover
You and me are not like the others
You and me are not like the others
