

Be Like You

[Atb](#)

I don't wanna be like you
I don't care about the things that you do
I don't wanna be like you
Leave it all behind and start anew I don't wanna be like you
I don't care about the things that you do
I don't wanna be like you
Leave it all behind and start anew I leave it all behind and start anew
I don't wanna be like you, I don't wanna be like you
I leave it all behind and start anew I don't wanna be like you
I don't care about the things that you do
I don't wanna be like you
Leave it all behind and start anew I leave it all behind and start anew I don't wanna be like you
I leave it all behind and start anew I don't wanna be like you
I don't wanna be like you Leave it all behind and start anew
