

Phoenixes

Emmy the Great

The Phoenixes headed west, cross country Nebraska, Nevada
The phoenix has to leave its nest but
Change is good for some
It is not good for othersFirst there were five, then there four
Leaf, he changed his colours, that's for sure
River was your favourite
His eyes were aqua
He's in our history now
Like CleopatraAnd you
My screen grab beauty queen
Typing something out in green
Like we were seventeen
Like we were seventeen
Like we were seventeen
Like we were seventeen
Like we were seventeenWhen we first met we read Bliss
Soon we were too old for this
We though that weight loss was survival
We thought that Vogue was French for Bible
Up on the wall
We put them allLeaf, he changed his colours, that's for sure
River was your favourite
His eyes were aqua
He's in our history now
Like CleopatraAnd you
My screen grab beauty queen
Typing something on the screen
Like we were seventeen
Like we were seventeen
Like we were seventeen
Like we were seventeen
Like we were seventeenRiver, Rain, Summer, Leaf and Liberty
River, Rain, Summer, Leaf and Liberty
River, Rain, Summer, Leaf and Liberty
River, Rain, Summer, Leaf and LibertyAnd you
My screen grab beauty queen
Are you working out your next life dream?
Like we were seventeen
Like we were seventeen
Like we were seventeen
Like we were seventeen

Like we were seventeen
Like we were seventeen
Like we were seventeen
Like we were seventeen
