

Cleaning Out The Rooms

British Sea Power

[Incomprehensible]

Where life is good in a way

Swept away upon our hearts, in cold coal ceremonial

On a rainy day, hang it up Get the vacuum and suck it in

Cleaning out the rooms, I'll clean it up

Dark cloud, drifting out of view

I'll never know, she'll be coming soon, that is all I'll wake up in a new life, ship shape and shoe shine

[Incomprehensible] Cleaning out the rooms, I'll clean it up

She'll be coming soon

Drifting into view, way in the west, white cloud

If everybody knew, I never knew, she'll be coming soon I'll wake up in a new life, down by the seaside

In a new life, down by the seaside Cleaning out the room, I'll clean it up

Dark clouds, she'll be coming soon

Down the chimney, out the window, that is all
