

# Beginning of the End

## Guster

We're not sentimental  
We're just oil-filled machines  
Trying not to say the things we mean  
You gotta show us a little love Our big brother tells us  
That it's something in our genes  
Pretty soon we'll all be coming clean  
So start showing a little skin I'm the judge and jury  
I'm the lion and the lamb  
And this is the beginning of the end  
It's breaking you down  
We're breaking you down We're unrecognizable  
We're sunken submarines  
Trying to escape before we're seen  
You're gonna miss us when we're gone
