

# That's Just Me

**Tim Mcgraw**

Well I was southern born and raised on the Good Book  
My old boots are worn from the hard roads I took  
And I'm proud to be my daddy's son  
And momma taught me how to work and not to quit  
Until the job's done  
Well I may not be high society but I got all I need  
And that's just me  
The only way I know to be  
That's just me  
What you get is what you see Well they tell me I'm old fashioned  
And that I'm part of a dying breed  
I'd say I'm living in real good company  
But that's just me Well I got me a wife and we're bringing up a young one  
Well she's a backwoods woman and my boy he's a top gun  
We live out in the country where we're free to roam  
And when a hard day is over how I love just going home  
Well it's the life I live and the air I breathe The way I believe And that's just me  
The only way I know to be  
That's just me  
What you get is what you see Well they tell me I'm old fashioned  
And that I'm part of a dying breed  
I'd say I'm living in real good company  
But that's just me Yeah they tell me I'm old fashioned  
And that I'm part of a dying breed  
I'd say I'm living in real good company  
But that's just me
