

# High and low

## Sambassadeur

I'm going to see some friends from out of state  
The very trip that you were supposed to take a while ago  
But it fell through like all of you, like all of you  
Thought I'd make the drive but a free plane ride is in the air  
Just like that my fear of it disappeared  
Like all of you, like all of you  
And I look high and low for yesterday  
High and low for you and I  
High and low  
Once I can see straight I might move somewhere cold  
Seattle or the Bay Area to see your ghost  
What's left of you? What's left of you?  
And I look high and low for yesterday  
High and low for you and I  
High and low  
Found a letter from a man I might have met addressed to you  
And I'll steal the words he ended with  
I miss you and I do, miss you and I do  
Look high and low for yesterday  
High and low for you and I  
High and low
