

# Fault Line

## Deep Purple

Painter, come color up my life  
Ohh, painter, come color up my life  
Take away the misery  
Take away the strife Writer, make me up a play  
Ohh, writer, make the meaning gay  
For I don't need a poem  
Just give me words to say Singer, let me sing a song  
Ohh, singer, let me sing a song, yeah  
You don't have to worry  
'Cause singer, you can sing along
