Turn It On

Sleater-Kinney

Reaching to another day
And the world is just one step away
Making money, aiming blind
It's time to change - leave it all behind

Turn it on - whenever you can
Turn it on - you know that you can

Hear the echo's in you heart
turn your mind in - then - make a start
Anything you want to be
Will soon become reality - then you'll see

Turn it on - whenever you can
Turn it on - you know that you can

You're out of touch - so turn it on
You don't need much - to burn it on

Take a different point of view
And discover just what you can do
Getting closer every day
Now the world is just a step away - (dont'delay)

Turn it on - whenever you can
Turn it on - you know that you can

You hit the top - so turn it on
You'll never stop - just burn it on

Turn it on (turn it on) - whenever you can
Turn it on (groovin'on) - you know that you can

Turn it on (turn it on, yeah) - whenever you can
Turn it on (just movin'on) - you know that you can

Turn it on

Turn it on

Turn it on

Turn it on
