Little Trouble Girl

Colossa

If you want me to I will be the one
That is always good and you'll love me too
But you'll never know what I feel inside
That I'm really bad little trouble girl
Remember mother?
We were close, very, very close
(Sha la la)
You taught me how to fit it good
Flow down life you understood
(Sha la la)
Curl my hair and eye lash
(Sha la la)
Hitch my cheeks and do my lips
(Sha la la)
Swing my hips just like you
(Sha la la)
Smile and behave
(Sha la la)
A circle of perfection, it's what you gave
(Sha la la)
Then one day I met a guy he stole my heart, no alibi
(Sha la la)
He said, "Romance is a ticket to paradise"
(Sha la la)
Momma, I'm not too young to try
(Sha la la)
We kissed, we hugged
We were close, very, very close
(Sha la la)
We danced in the sand and the water rose higher and higher
Until I found myself floating in the sky
(Sha la la)
I'm sorry mother, I'd rather fight than have to lie
If you want me to I will be the one
That is always good and you'll love me too
But you'll never know what I feel inside
That I'm really bad little trouble girl
Little trouble girl
(What you doin'?)

(Little trouble girl)
Cross my heart and hope to die
(Little trouble girl)
I can not tell a lie
(Little trouble girl)
Little trouble girl
Little trouble girl
Little trouble girl
