

Don't Break My Heart

Vaya Con Dios

Sometimes I feel so empty
So deserted and so lonely
And no one can take that pain away
Dont break my heart
The anger and the fury
And the fears living inside me
Should you love me
Would you love them just the same?
Dont break my heart
Dont break my heart
Ive been strong and brave
Sometimes lost my faith
And too many times
Threw caution to the wind
So if you tried to understand me
Would you crucify or damn me?
Or stand by me
Like smoke around the flame?
Dont break my heart
Dont break my heart
Ive been strong and brave
Sometimes lost my faith
And so many times
Saw love come to an end
Its not a question of pride
Its not the tears that Ive cried
Its not a question of pride
Don't break my heart
Dont break my heart
Ive been strong and brave
Sometimes lost my faith
And so many times
Saw love come to an end
Its not a question of pride
Its not the tears that Ive cried
Its not a question of pride
