Ween

Good morning my love
The skies are clearing up today
Can I kiss you on the boob like I did yesterday? You let me in, you let me sin
You made me cry, you got me high Can I touch you in the nude?
You lookin' really good in bed
How come you ain't talkin' like we was yesterday? You let me in, you let me sin
You made me cry, you got me high Wake up little wakeup
Got somethin' to say
Don't move a muscle
I'm gettin' dressed and I can't stay Ohh, you let me in, you let me sin
You made me cry, you got me high You let me in, you got me high,
Got me high, got me high, high, high
Good morning love,
Good morning my love
