

Once Dead

Tremonti

once dead once decieved
twice bled under seige
came on like a storm
once dead forever born when all the time is gone
I'll break you when you play along
I need your pain again
I know you'll bring it once killed once we fall
I've lived through it all
we sink like a stone
once dead once below(X2)
when all the time is gone
I'll break you when you play along
I need your pain again
I know you'll bring it
