How to Fly

Jason Chen

(Verse)
When you feel like you're lost, can't be found
When you feel like the sky is falling down
No point in sitting and waiting around
Keep your head up high, get your feet off the ground.(Pre-Chorus)
Just get back up when you fall
Don't hold back, free for all.
You've come too far to lose it all,
It's too late to turn back.(Chorus)
Even when all your feeling is pain
Even when things ain't going your way
Is a test that we all have to take
You have to fall before you can learn how to fly.(Verse)
If you're falling apart, close your eyes,
When you're down, you can still touch the sky
Your heart stops, but you still feel alive
Don't be afraid, fear only lives in your mind.(Pre-Chorus)
Just get back up when you fall
Don't hold back, free for all.
You've come too far to lose it all,
It's too late to turn back.(Chorus)
Even when all your feeling is pain
Even when things ain't going your way
Is a test that we all have to take
You have to fall before you can learn how to fly.Even when all your feeling is pain
Even when things ain't going your way
Is a test that we all have to take
You have to fall before you can learn how to fly.
