Count On Me

El Presidente

You say that love has caused you pain
And nothing seems to ever change
And you're all burnt out
Because I cannot match you down
And every time you let love in
That's when uncertainty begins
Nothing to break your part
Seems like love don't love alone
That's not the way it's suppose to go
Love is the greatest thing between two people
If you don't open up your heart you'll never know
So baby, if you let me be everything you need
Then I can guarantee that you can always count on me
I will never lie to you, I'll never be untrue
So if you need someone to love you, you can count on me
So tell me what I have to do?
I've opened up my heart to you
And now it's in your hands
You decide where this love stands
And I'm convinced we're meant to be
And it's no mystery to me
So can we add this trial
To find out if this love is right?

I know you're thinking, here we go again
But this time it's gonna be so different
So don't you be afraid to let this someone in
Baby, if you let me be everything you need
Then I can guarantee your heart can always count on me
And I will never lie to you and I won't be untrue
So if you need someone to love you, you can count on me
People searched for all their lives
Looking for someone they never find
Fortunately you and I have found each other
I will always be there for you
Anytime you need me to
Because you can always count on me
Baby, if you let me be everything you need
Then I can guarantee you can always, always

And I will never lie to you and I won't be untrue
So if you need someone to love you, you can count on me
Baby, if you let me be everything you need
Then I can guarantee your heart can always count on me
And I will never lie to you and I won't be untrue
So if you need someone to love you
