The Last One

Aquanote

Who am I? Wipe the tears in your eyes
I've tried to be right by your side
In your time of need, love spun in perfect melodies
Right as Ray, I came to take your pain away
But you just don't hear meLove, I am royalty
Song filled with poetry
Love, been 'round for centuries
Love but you just don't feel meHaven't I spoken words from your heart
Heal the pain, yes, when your world fell apart
In your time of need, love's on the perfect remedy
All in vain was the shape, it's time for me to fade away
'Cause you just don't hear meLove, I am royalty
Song filled with poetry
Love, been 'round for centuries
So end's my life, go seeSo, I am the last one
I am the last one, I am the last one
I am the last one, I am the last one
I am the last one, don't let goI am the last one
I am
I am the last one
I am the last one
