

# People Miss Planes

[Deana Carter](#)

A tear ran down his face as she started to leave  
He said, "Baby, don't do this I'm beggin' you please"  
What can I say to stop you from walkin' out on us  
I'll do anything to save our loveShe said, "I'm through with talkin' you know I've tried my best  
I gotta leave right now, I've got a plane to catch" and he said"People miss planes, it happens all the time  
They cancel their plans, they change their minds  
Listen to your heart before you go too far  
Baby turn around before it's too late, people miss planes"She made it to the airport in the nick of time  
In a moment she'd be gone yeah, she'd board that flight  
She'd fly away from trouble from the struggles that they had  
And from everything that they had sharedA tear fell on her ticket as she thought about their love  
In just another minute, she'd give it all up  
Then she heard a voice calling, boarding flight 41  
When another voice inside her said, you don't have to get onPeople miss planes, it happens all the time  
They cancel their plans, they change their minds  
Listen to your heart before you go too far  
You can turn around before it's too late, people miss planes  
People miss planes, people miss planes
