

# Got Old

## The Babies

I was twenty-one, I was thirty-three  
I was just a child when I was seventeen  
I got old [repeat 3 times]In every year it is a different number  
In every meal it's more like my father  
I got old [repeat 3 times]And now I'm comfortable within this world  
And it's all I know  
I'm not ready to goMiles around you  
You feel like my mother beneath the shoulder of my father  
Yeah they were young once,  
Yeah in their own right  
They were like us.I had a friend just like a child  
Let him stay young, young and wild.  
Never got old, never got old  
He died so youngLet the days move slow as everyone I know grows old  
Let through them grow.  
I will come back old  
And the year which I hold in me  
Which I hold in me [Repeat 3 times]Now there's nothing to do in this town  
There's nothing to do in this town anymore  
And no one is left around  
There nothing to do in this town anymoreOh lord, I got old  
I got old [repeat 6 times]When I was young  
Man, I was younger  
You should have seen me  
I was on fire
