

Nine Lives

Def Leppard

Is your luck enough?
Is your touch enough? Cmon girl
Can you keep it up?
Is your bluff enough? Are you tough enough?
Is your stuff enough?
Can you start it up?
Are you sharp enough? Let it roll, let 'em go, let 'em fly
Took a chance on a chance but the aces were high
Get it on, give it up, give it in
You stole the wages of sin, got to be in it to win Nine lives, nine times to die
Ive been bitten once but I wont be twice shy
Nine lives, nine times to die
Come on and show me your hand 'cause its your time to cry Have you lost your touch?
Are the stakes too much?
Did you spin the wheel
And could you close a deal, yeah, yeah? Let it roll, let 'em go, give 'em style
Took a chance on a chance but the deuces were wild
Get it on, give it up, give it in
You stole the wages of sin 'cause youre in it to win Nine lives, nine times to die
Ive been bitten once but I wont be twice shy
Nine lives, nine times to die
Come on and show me your hand 'cause its your turn to cry, hey Let it roll, let 'em go, let 'em fly
Took a chance on a chance but the aces were high
Get it on, give it up, give it in
You stole the wages of sin, got to be in it to win Nine lives, nine times to die
Ive been bitten once but I wont be twice shy
Nine lives, nine times to die
C'mon and show me your hand 'cause its your turn to cry Nine lives, nine times to die
Ive been bitten once, but I wont be shy twice
Nine lives, nine times to die
Its Russian roulette with every roll of your dice And nine lives is all youre gonna get
I said all youre gonna get, yeah
Nine lives, nine times to die
Youve just bitten less than your nine lives
