

I'll Be Waiting

[Santana](#)

It's been so long
Since I've seen your face
Yet I know
Soon I'll have your embrace
I'll be waiting
Waiting just for you
Life keeps afloat
And my love grows and grows
You are the light
And you're the light and the rain
I'll be waiting
Waiting just for you
Oh, it's been a long long time
I don't mind
Rhythm deep
Know the earth
I'll be waiting, waiting
Waiting just for you
Life keeps afloat
And my love grows and grows, yeah
You are the light and
And you're the light and the wind
I'll be waiting, waiting
Waiting just for you
Just waiting
