Hypnotize

Chris Standring

You hypnotize me, deeper than the deepest sea oh you hypnotize me
I guess you hit me when my head's a mess, I can't sleep cause you hypnotize me
It's just like a deam, adrift in a daze.
Something's try'n to get you but you can't run away
Caught up in your stare locked down in your trance
I try to run your distance but my feet don't dance
(i got to say)
Something's got me trip'n up my world
A black shadow fallen over me
Something's got me think'n bout my girl
My girl you got a hold and I can't break free
You hypnotize me, deeper than the deepest sea oh you hypnotize me
I guess you hit me when my head's a mess, I can't sleep cause you hypnotize me
The look on your face touch'n tongue to your lips
Pressed against your body puts the move in my hip
You remind me of a far off and foreign land
Wanna swim your ocean feel my feet in your sand
(yeah yeah)
Something's got me trip'n up my world
A black shadow fallen over me
Something's got me think'n bout my girl
My girl you got a hold and I can't break free
You hypnotize me, deeper than the deepest sea oh you hypnotize me
I guess you hit me when my head's a mess, I can't sleep cause you hypnotize me
Don't you make me do it or put me through it you wouldn't dare?
Baby you don't play fair
You're closing in my circle got me reach'n for air
I'm drown'n babe you don't even care
You hypnotize me, deeper than the deepest sea oh you hypnotize me
I guess you hit me when my head's a mess, I can't sleep cause you hypnotize me
You hypnotize me, deeper than the deepest sea oh you hypnotize me
I guess you hit me when my head's a mess, I can't sleep cause you hypnotize me
You hypnotize me, deeper than the deepest sea oh you hypnotize me
I guess you hit me when my head's a mess, I can't sleep cause you hypnotize me
