How 'Bout Tonight

Ryan Cabrera

Oh, maybe I'll build a rocket and fly myself up
To the moon all for nothing, nothing at all
Maybe I'll come in contact
Contact with somebody new, it'd be niceHow about tonight, it's all you?
Move all the world, I would do
We could make love, stay up till the sunrise
Capture moments you can't buy, that's right
How about tonight? How about tonight?With your hand in my pocket we'll take down the sun
And we'll lay where the hills hide on your old trampoline
Have a dance made for lovers
Imagine a world where there's no one alrightHow about tonight, it's all you?
Move all the world, I would do
We could make love, stay up till the sunrise
Capture moments you can't buy, that's right
How about tonight?If we wait till tomorrow it'll just pass us by
So take my hand and follow
It will all be alright
So how about tonight, it's all you?How about tonight, it's all you?
Move all the world, I would do
We could make love, stay up till the sunrise
Capture moments you can't buy, that's right
How about tonight? How about tonight? How about tonight?
