

To Shine

Kicking Harold

Turn out the lights
With one breath
'Cause candles make you nervous Lay with your head
On my chest
And tell me the secret, baby Hold me here forever
I wanna feel like we are one
Breathing in together
I know what it means to shine
Run for a towel
As you laugh
They don't show this in movies Take the good side
Of the bath
I'll sit on the drain, baby Hold me here forever
I wanna feel like we are one
Breathing in together
I know what it means to shine
I'm shining with you tonight
Everything feels just right
I'm shining with you tonight
Hold me here forever
I wanna feel like we are one
Breathing in together
I know what it means to shine
I know what it means to shine
I know what it means
(Yes I know it now)
To shine
