

Lost In the Sauce

Kid Ink

Man I hear these n****s talk
When I see 'em but they don't really say it all
But we ain't really feelin' y'all
Anyway man I swear that they f***in' lost
Lost, in the sauce
They f***in' lost, lost in the sauce
They f***in' lost, lost
And I been tryna play it off
But somebody needs to tell 'em who they really are And tell 'em what I'm really bout
From the bottom nobody there to dig me out
All these gold diggin' hoes on a n**** now
Tell her take it to the floor baby sit it down
Way before the rap n****
I would barely wave to these whack n****s
But now I see 'em all with they hands out
Like a diver, I let 'em all drown
I'm yellin' out
Reportin' live somewhere on a cloud
World wide but these n****s know I'm west bound
Everybody takin' shots lemme get a round
Talkin' s*** I'll plunge a muhf***a
At the top come bungee with a muhf***a
Up all night f*** who the rest is
Bet your girlfriend know who the best is Man I hear these n****s talk
When I see 'em but they don't really say it all
But we ain't really feelin' y'all
Anyway man I swear that they f***in' lost
Lost, in the sauce
They f***in' lost, lost in the sauce
They f***in' lost, lost
And I been tryna play it off
But somebody needs to tell 'em who they really are They come and try to tell me that it's hype now
Hollywood they ain't ready for my lifestyle
Money talk I don't care how it might sound
Put your ears to the ground hear me comin' down, like a stampede
Live the fast life, of a celebrity
These n****s ain't won s*** why they celebratin'
On a whole nother level on the elevator
Got 'em lookin' to the sky see me high up

Finally everything I desired
Is in my hands, seen so many n****s lose it
Over this bulls***
No aim shootin' for the stars with a full clip
Now they tryna get they hands in my pot
Lost in the sauce meatball problems
Swear I can't take no more of the nonsense
Tell 'em that I'm ready for the consequence, b****Man I hear these n****s talk
When I see 'em but they don't really say it all
But we ain't really feelin' y'all
Anyway man I swear that they f***in' lost
Lost, in the sauce
They f***in' lost, lost in the sauce
They f***in' lost, lost
And I been tryna play it off
But somebody needs to tell 'em who they really are
