No Will to Live

Possessed

Mutants from the battle

Suruivors of the blast

Lighting fills the sky

To day will be lastBlood stains on the earth

As the night emits its shadow

No hope of rebirth

From the final battleNo will to live, so set me free

From this pain & miseryThere's no days to pass

No tomorrow here

Next breath is you last

And no time for fearDeath is in the air

And thunder in the skies

Shildren is despair

But his blade you dieWear a robe of death

Stand around the fire

Steaming is you breath

Worshipping the sireSatan's call is strong

From a world away

Tempt you with his eyes

And you will decayNo will to live, so set me free

From this pain & miseryBlood runs from my throat

Razor in my hand

Ended with a slice

All the blood is niceHanging by a rope

Wrapped around my neck

End my life with death

Murder on my breathDrink the blood from my chalice

Come to hell & my palace

Grab you heart

It's in my hand

Take you to the evil landAlone at night

In your grave

Coffin's door is your slave

Blackened earth is all arround

Below, I hear a burning soundWhat could it be except for hell?

Burning souls is what I smellCan't suffice

So pay the price

Give your soul

Take the toll

Die...Bleed for me
Your death, so sweet
Die for me
You'll feel the heat
I'm real as the earth
Can you feel Satan's birth?In the night the undead roam
In the day, you dead in your home
You can live only by death
Worship Satan with the restBurning bodies fall from the sky
Horrid glances in thir eyes
Glowing numbers on their heads
They've arrived, the living death
