

Who's Gonna Take the Weight?

Kool & The Gang

People, the world today is in a very difficult situation
And we all know it because we're the ones to created it
We're gonna have to be the ones to clean it up
We're gonna have to learn to live together and love each other Because I believe one day someone or something
Is gonna wanna judge who's creating
All this corruption and death and pollution
And all these difficult situations on earth And He's gonna wanna know
Who's gonna take the weight Who's gonna take the weight
I don't know, I don't know
Who's gonna take the weight
Who's gonna take the weight
Who's gonna take the weight
