

Vital Signs

Rush

Unstable condition, a symptom of life
In mental and environmental change
Atmospheric disturbance, the feverish flux
Of human interface and interchangeThe impulse is pure
Sometimes our circuits get shorted
By external interference
Signals get crossed and the balance distorted
By internal incoherenceA tired mind become a shape shifter
Everybody need a mood lifter
Everybody need reverse polarity
Everybody got mixed feelings about the function and the form
Everybody got to deviate from the normAn ounce of perception, a pound of obscure
Process information at half speed
Pause, rewind, replay, warm memory chip
Random sample, hold the one you needLeave out the fiction, the fact is this friction
Will only be worn by persistence
Leave out conditions, courageous convictions
Will drag the dream into existenceA tired mind become a shape shifter
Everybody need a soft filter
Everybody need reverse polarity
Everybody got mixed feelings about the function and the form
Everybody got to elevate from the normEverybody got mixed feelings
Everybody got mixed feelings
Everybody got to deviate from the norm
Everybody got to deviate from the normEverybody got to elevate from the norm
Everybody got to elevate from the norm
Everybody got to elevate from the norm
Everybody got to evalate from the normEverybody got to escalate from the norm
Everybody got to elevate
Everybody got to elevate from the norm
Everybody got to deviate from the norm
