

# Ironstar Outlaws

## Hanzel und Gretyl

Solo riding to the star  
Rebels to infinity  
I reject all that you are  
This black metal shines for me  
Super blitzkrieg demon ride  
I stand upon this infamy  
I curse you and your death machine  
These uber bullets speak for me Take me home  
Wolf 424  
Bring me back down  
Down to the core  
Once a rebel  
Für immer ein Stern  
Praise the outlaw  
Heil! Amen! Dark rift of the galaxy  
True death and all it's majesty  
The sun conjuncts the world's on fire  
Kontrol is now our destiny  
Accelerate and don't look back  
The blitzkrieg now is on the track  
Bruised in battle give me more  
Ironstar Outlaw Take me home  
Wolf 424  
Bring me back down  
Down to the core  
Once a rebel  
Für immer ein Stern  
Praise the outlaw  
Heil! Amen!  
Fucking legends to the core
