Leap Of Faith

Sweet

One less call to answer
Feeling full of despair
Don't think I can get through it
Just one last prayer
And it's a leap of faith
When you believe there's someone out there
It's a leap of faith
When you believe that someone cares, oh
And when I call out to you will you be right there?
Right there
Searching for the answer
Nobody seems to care
Oh, how I wish that you were here beside me
To wipe away my tears
And it's a leap of faith
When you believe there's someone out there
It's a leap of faith
When you believe that someone cares, oh
And when I call out to you will you be right there?
Right there
Waiting for the answer
Remembering times we would share
Somehow I feel you here beside me
Even though your not there

And it's a leap of faith
When you believe there's someone out there
It's a leap of faith
When you believe that someone cares, oh
And when I call out to you will you be right there?
Right there
Right there
And I'll be waiting by the window for your smile to come through
And I'll be waiting in the darkness when I call out to you
And I'll remember when you told me
I could trust in you
And it's a leap of faith
When you believe there's someone out there
It's a leap of faith

When you believe that someone cares, oh
And when I call out to you will you be right there?
Right there
It's a leap of faith
And I believe that you are out there
It's a leap of faith and I believe you truly care, oh
And when I call out to you I know you'll be right there
Right there
And it's a leap of faith
