

Come Closer

DJ Zebra

[Verse 1:] A wind is blowing and a fire's loose
I couldn't find the words to call a truce
And tore the temple down to let the spirit rise...ooo
In the sound of the storm
I can hear just one voice
[Refrain:] All over
Let us all come closer
[Verse 2:] There is nowhere to touch that doesn't hurt
There is nowhere that I can't look that isn't blurred
With all the righteousness and all the holy words...ooo
In the sound of the storm
I can hear just one voice
[Refrain:] All over
When the heart sinks lower

And the healing slower
Let us all come over
[Verse 3:] I need a hand for
A thread of peace and a seed of hope
I will raise my eyes to see more
Speak a truth and we shall know...ooo
In the light of one choice
We will sing with one voice
[Refrain:] All over
When the heart sinks lower
And the healing slower
Let us all come over
[Verse 4:] That is where we are
That is who we are
That is all we are
