

# Eternal Lies (Remastered)

## Tad Morose

Hear them preach of eternal life if you've lived by all their rules They  
try so hard to give you shelter from the cold, cold world outside They try  
so hard to get into you

Fear eternal lies I stand alone Somewhere between what's right or wrong If there's a God in  
heaven from whom the earth was given I can't believe yet I can't deny  
what's going on Can't stay alive no place to go no place to hide Keep on searching for the answers but the more  
you learn the less you know  
I cannot scream and I cannot cry So tell me why I feel this way Is it true  
what they say There's no way out and I know it's true
